

Comments to BOS by Brennan on 12/17/25

- a. Introduction: I am James Brennan, a resident of the Midlothian District of Chesterfield County and I pay taxes
- b. I have a simple request for the BOS: limit FY2027 expenditure increases to 2.8%, i.e. the CPI-U and Medicare approved COLA for o26
- c. Taxes are not an entitlement for the County to spend taxpayers' monies. They are the public's investment in the County to better their life.
- d. Real increases in County expenditures are a negative return on the public's investment
- e. If the County must increase expenditures above 2.8%, those increases should be funded by reductions in the County's general fund expenditures.
- f. Thank you.
