Good evening, Board of Supervisors.

- The tribute to Jim Holland was well deserved. He was a class act and will be deeply missed.

- Jim Ingle, thank you for delaying the Woolridge property purchase vote. Rushing the Midlothian Middle School relocation without community input erodes trust and is not good governance.

- Please postpone the purchase vote until spring (March or April) to enable meaningful community discussions on this 100-year decision. Even if it is the right choice, transparency and community involvement are essential. The rushed process raises serious questions.

- Mark, you promised this spring to hold community discussions before this critical Midlothian decision. Proceeding without them is unacceptable. We urge you to honor that commitment and provide clarity.

- For fairness and efficiency, please limit supervisor reports to 3 minutes each, as required for public comments. Last night's 43 minutes of BOS reports delayed important business.

We (Chesterfield Citizens for Responsible Government) are available to meet anytime. Please suggest a convenient time.

Thank you.

Thomas Kierl
